

APICS

CERTIFIED SUPPLY CHAIN PROFESSIONAL

OVERVIEW

The APICS Certified Supply Chain Professional, (CSCP) is designed to help you master end-to-end supply chain. You will learn core concepts in supply chain management, strategy, design, compliance, and operations. Professionals across all industries benefit from earning the CSCP credential. This program is designed for:

- Supply chain managers
- Materials managers
- Operations managers
- Supply chain analysts
- Consultants

Your journey begins with the CSCP Learning System. Designed to help you prepare for the CSCP exam, the learning system helps to build on your strengths and improve your knowledge to successfully earn this sought-after credential.

APICS Certified Supply Chain Certification (CSCP) is the playbook you need to understand and deliver this critical process. The comprehensive program covers everything you need to know across the global supply chain, from suppliers to customers and back again. Earning your CSCP designation shows that you have the skills to prepare for and overcome disruption, manage risk, and evaluate and implement modern supply chain technologies.

QUALIFICATION STRUCTURE

To earn your CSCP designation, you must pass one exam covering eight modules. Each module reflects critical areas in supply chain management.

Module 1:

Supply Chains, Demand Management, and Forecasting

Module 2:

Global Supply Chain Networks

Module 3:

Sourcing Products and Services

Module 4:

Internal Operations and Inventory

Module 5:

Forward and Reverse Logistics

Module 6:

Supply Chain Relationships

Module 7:

Supply Chain Risk

Module 8:

Optimization, Sustainability, and Technology

Course Duration:

48 Hours

Local Certification:

Professional Qualification
attested by Qatar Chamber of
Commerce and MOFA

International Awarding Body:

American Production and
Inventory Control Society
(APICS)

ELIGIBILITY REQUIREMENTS

The APICS CSCP Certification arms you with end-to-end supply chain knowledge to help you and your business remain competitive in today's economy. Boost your confidence in supply chain management and master the skills needed to bring new ideas to suppliers, plants, and distributors while improving customer satisfaction.

To be eligible to take the APICS CSCP exam, you must have at least one of the following:

- Three years of business experience
- A bachelor's degree or an international equivalent
- An active CPIM, CPIM-F, CIRM, SCOR-P, CPM, CPSM, CTL or CLTD certification

Your APICS Certification preparation begins with the APICS learning system:

- Module 1: Supply Chain Design
- Module 2: Supply Chain Planning and Execution
- Module 3: Supply Chain Improvement and Best Practices

To maintain your CSCP designation you must submit a certification maintenance application every five years.
